DID YOU KNOW?

- CSI is your source for quality cabinetry by Jay Rambo Co., Leicht, Schrock and Schulte.
- We offer top name appliances and fixtures by Abbaka, Asko, Best, Blanco, Bosch, Dacor, Faber, FiveStar, Franke, Gaggenau, Grohe, Miele, Scotsman, Sub-Zero, Thermador, Toto, U-Line, Vent-A-Hood, Viking, Wolf and Zephyr.
- Countertop options include granite, marble, wood, concrete, Ice-Stone, CaesarStone, Cambria, Corian, Silestone, Staron, Zodiaq.
- CSI also designs closets, libraries and entertainment centers.

These homeowners, who have a lovely home near the Chattahoochee River, had systematically remodeled their entire home, but the kitchen was the last area to receive a makeover. They wanted to

This after view shows the improvements—taller cabinets with staggered heights, a raised bar on the island with seating and granite countertops.

make the kitchen more inviting with space for seating, state-of-the-art appliances, and an elegantly updated appearance.

We began the makeover by removing a wall between the kitchen and breakfast room to create enough space for the enlarged island. Next to go was the soffit over the cabinets to allow for taller wall cabinets (and more storage space). The cabinet heights are staggered for visual interest and the corners include seeded glass. The new cabinets were chosen from our Jay Rambo line and are

maple with a rich English Walnut finish for the look of fine furniture. The countertops are of two types of granite—Compass Black with a leather texture for the perimeter, and the flowing Golden Lumière for the island. The owners especially love their Wolf and Sub-Zero appliances—particularly the Wolf induction cooktop which heats and cools very quickly.

This beautiful kitchen will be among those on view during the Junior League of Atlanta's Tour of Kitchens 2009, the weekend of March 28-29.

Our thanks to our homeowners for participating in the tour!

The kitchen as it was—with soffit, short wall cabinets and island without seating.

SCHROCK'S NEW FOUNDATION SERIES

Think a new kitchen is beyond your means? Think again! Schrock has introduced a brand new series, called Foundation. Foundation offers quality cabinets at a great price point and with some of the same features and options you would expect in more expensive cabinets.

This elegant master bath was designed in the Thatcher style, maple wood and sorrel stained finish.

Foundation features three wood door styles—Norwich (a partial overlay flat panel, Harlan, (a partial overlay raised panel) and Thatcher (a modified full overlay Shaker style); and one laminate door, Garrett (modified full overlay), in white. Norwich is available in maple, cherry and oak; Harlan in maple, cherry, oak and hickory; and Thatcher in maple, cherry and hickory. In addition to several standard stained finishes for each wood style, there are two glazes—cocoa and ebony—that may be applied to maple and cherry finishes for an upcharge..

Standard construction includes a furniture board carcass with matching laminate ends that may

Norwich in oak with chestnut stain was used to create an organized, stylish laundry.

be upgraded to plywood ends. Standard drawers are furniture board with sidemount guides—these may be upgraded to 3/4" dovetailed drawer boxes with full access undermount guides.

Create the beautiful kitchen or bath you've wanted with the affordable luxury of Foundation!

NEW YEAR'S MAINTENANCE TIPS

The holidays are over, and it's time to face the new year with a fresh start! With that in mind, here are some kitchen maintenance tips.

Granite: Be sure to wipe up spills immediately. Acids like citrus juices and wine can stain; and oils, if left standing, can penetrate the stone. Daily care is simple—just clean with a mild soap and water, rinse and dry with a soft cloth. At least once a year apply a penetrating stone sealer. This is

very quick and easy to do and will help protect your granite tops from staining and keep them looking like new. If a stain occurs, most can be removed by applying a simple poultice or paste to draw out the stain.

Cabinets: For ordinary cleaning, our cabinet manufacturers recommend wiping down with a soft cloth dampened with warm water, followed by drying with a soft cloth. Avoid prolonged exposure to water. For a more thorough

We have recently expanded and updated our web site. Take a look at www.csikitchenandbath.com for news, information, and lots of pictures of our projects!

cleaning, use a mild dishwashing liquid mixed with warm water or a diluted all-purpose cleaner without ammonia or silicone. Dry thoroughly. Avoid abrasives, and waxes, polishes and aerosols are not recommended for because they can cause build-up and attract dirt.

CSI LAUNCHES CLOSET WEBSITE

Everyone wants a fabulous kitchen, right? But number two on homeowners' wish lists is customized storage. CSI, therefore, has launched a new website devoted to our closet and storage solutions! Featuring Schulte Strong

Organizing your garage is easy with storage components by Schulte.
